## iwata Eclipse

### Iwata Eclipse

#### IWA4200 — HP-BCS Airbrush and Bottle only

#### IWA4201 — HP-BCS Airbrush, bottle, hose, cleaner, and paint

- Bottom-feed airbrush features a 0.5-mm needle and nozzle combination
- Sets the industry standard for high-performing, general-purpose, high-paint-flow airbrushes
- Versatile, reliable performance — this airbrush does it all

IWA4237  
IWA4238

IWA4200  
IWA4201

### Iwata Eclipse

#### IWA4207 — HP-CS

- Gravity-feed airbrush features a unique 0.35-mm needle and nozzle combination for fine-detail spraying, but with high-paint-flow capacity
- Generous 1/3 oz. sized cup is designed with a new funnel shape, which makes for easy clean up and more efficient paint flow
- Automotive artists, fine artists and students will appreciate how well the Eclipse CS sprays heavier acrylics and Medea Textile Colors, while maintaining high-detail spray characteristics

IWA4207

#### IWA4221, IWA4220, IWA4210, IWA4211 Automotive Airbrush Set

Start airbrushing today with this self-starting kit. It has everything one needs to get started airbrushing on vehicles, helmets, tanks, virtually anything!

IWA4221 — Without Compressor

IWA4220 — With Compressor

Includes:

- Smart Jet Compressor with Iwata Eclipse HP-CS
- Airbrush Concepts by Craig Fraser DVD
- Artool™ Angle Master™ Freehand™ Airbrush Template

IWA4211 — Without Compressor

IWA4210 — With Compressor

Includes:

- Smart Jet Compressor with Iwata Eclipse HP-BCS
- Medea Solvent Proof Bottle Pack with Airbrush Cleaner
- Artool™ Angle Master™ Freehand™ Airbrush Template

### Iwata HP-TR1 and HP-TR2

IWA4237 — HP-TR1 — .3-mm nozzle

IWA4238 — HP-TR2 — .5-mm nozzle

Featuring a uniquely designed Pistol Trigger with a fixed dual-action operation, the Iwata Revolution TR Airbrushes deliver comfortable, ultra-smooth performance that's ideal for custom automotive painting. Equipped with the new FA450 Iwata Pistol Grip Filter that acts as a superior defense against moisture, the HP-TR1 and HP-TR2 give total control over paint and spray just like conventional airbrushes. Their designs offer the same comfort and feel that's typical of a larger spray gun. Each is impervious to solvent-based paints thanks to the Teflon packing needle seal, which can be easily replaced.

- Unique pistol trigger that is comfortable and smooth
- Featuring the Pistol Grip Filter, your last defense against moisture and 1/2 oz. side-mount color cup
- Dual action for full control over paint and spray
- Great for custom automotive painting since the design offers similar feel and comfort typical of spray gun usage

### IWA4292

#### Iwata Kuston Hi-Line HP-TH

The first airbrush to create a fan-patterned spray, the TH stands alone among its peers. Triggering the imagination of auto-body touch-up and Kustom painting, the Kuston TH delivers unprecedented control of a fan pattern with a minimum of overspray giving it a unique advantage over mini touch up guns. Great for small areas such as chip repair, fender welds, door jams and other hard-to-reach areas.

- 0.50 mm nozzle
- Micro Air Control Valve
- "Fan-Patterned" air cap (fan pattern requires compressor with at least 1.2 cfm)
- "Round-Patterned" air cap
- Teflon™ needle packings
- Large, 1/2 oz. (14 ml) removable gravity-feed fluid cup
- Spray-gun trigger design

IWA4292

### SATAgraph 1 Airbrush

The SATAgraph 1 offers a first-rate introduction into the world of airbrush guns. This SATA gravity flow cup airbrush features a Double Action system with independent air and material flow control. It is ideal for beginners or professionals' artistic painting. nozzle sizes are available in 0.25 and .45mm. The SATAgraph 1 airbrush comes with a 2.5 ml paint cup

### SATAgraph 1

**SAT134544** — .25mm, w/ 2.5ml Gravity Cup

**SAT136069** — .45mm w/ 2.5 ml Gravity Cup

### SATAgraph 2 Airbrush

The universal SATAgraph 2 is convertible from gravity to siphon. Simply by turning the gun body 180° and switching cups, the gravity flow version can be converted into a siphon cup version in no time. The all-around superfine 0.25mm set is appropriate for many types of airbrush applications. The SATAgraph 2 has a Double Action system for fine fan control.

### SATAgraph 2

**SAT135079** — .2mm, Gravity and Siphon Cup

**SAT134536** — .25mm, Gravity and Siphon Cup

**SAT123448** — .2mm, Gravity and Sip. w/ Hose

### SATAgraph 3 Airbrush

The premium SATAgraph 3 is available in gravity flow cup or siphon cup version. Nozzle sizes vary from .15mm to .65mm offering demanding airbrush artists new options for creativity. An optimized trigger with extended transition gives precise fan control. The SATAgraph 3 airbrush has a variable material adjustment control on the end of the handle. That option limits material flow to spray the precise amount. The SATAgraph 3 is designed with separate bi-component needle tip and air cap. The artist can spray the finest lines and dots to meet the most demanding requirements.

### SATAgraph 3

**SAT136077** — .15mm, 2.5ml Gravity Cup

**SAT134569** — .25mm, 2.5ml Gravity Cup

**SAT136085** — .45mm, 2.5ml Gravity Cup

**SAT134585** — .25mm, 5ml Siphon Cup

**SAT136093** — .45mm, 5ml Siphon Cup

**SAT136101** — .65mm, 5ml Siphon Cup

The **Artool™ Freehand™ Airbrush Templates** are a real asset to anyone who uses an airbrush. These **SOLVENT PROOF** templates can be easily flexed or curved around irregular shaped surfaces and cleaned with solvents without being damaged. Delineate shapes by matching the contours of the **Freehand™ Airbrush Templates** with the subject matter. Simply rotate or flip-flop the **Freehand™ Airbrush Templates** to find the shape that works best or raise the template slightly to create a soft edge. However you use these templates, you're sure to create something great!
