TOOL AID
PROFESSIONAL AUTOMOTIVE TOOLS

LIS35260

Plastic Fastener Remover

Removes Plastic Hold-Down Fasteners. This tool quickly removes various types of plastic fasteners that hold on weather stripping, radiator shrouds, fender linings, air dams and other plastic or rubber parts. The tool is equipped with a sliding urethane button for use when extra leverage is necessary.

LIS35260

LIS51000

Heavy Duty Scraper

Sharp Steel Blade Quickly Peels Off Carbon, Sludge.

Sharp, hardened steel blades remove carbon, old gasket material, adhesives, sludge and other hard-to-clean substances from blocks, heads, etc. Comes with three blades: 1", 1-1/2" and 2" widths. Tool will hold single edge razor blade for bumper stickers and decals.

LIS51000

S&G87880

S&G87880 18" Urethane Cut-Out Knife

Light-weight, rigid aluminum shank with vinyl grip, cuts the urethane bond holding windshield.

S&G87900

S&G87900

Windshield Removing Tool (Cold Knife)

Use to remove windshields, backlights and bonded backlights. Cuts the sealant around windows with specially designed tempered steel blade. Extra blade supplied with each tool. Pull handle provides additional leverage. Replacement Blade Part No. 87902.

S&G87940

S&G87940

3 Position Inspection Sticker Scraper

General purpose windshield and window scraper uses single edge razor blade. Can be used in three different lock positions to aid in cleaning windshields at corners and on curved surfaces. Blade section folds into handle and locks for safe storage. Supplied with blade. Replacement Blade Part No. 87960.

PAIWINDK

Air Windshield Remover with 3 pc. Blade Set

SPECIFICATIONS:

Oscillations (cycles) per Minute: 20,000

Stroke Arc: 3°

Overall Length: 8"

Net Weight: 3 lbs.

Air Inlet Thread NPT: 1/4"

Air Hose I.D. Size: 3/8"

Avg. Air Consumption: 4 cfm

- As a sealant cutter, cuts around bonded and encapsulated glass
- Efficiently cleans and smoothes mouldings after glass removal
- Teasing throttle and regulator to provide easy speed control
- Flexible blade mount can be positioned in 12 different ways (at 30° increments)
- Rear exhaust directs air away from work

- Blades included with tool: PAIWINDK-08E 57mm Bent Blade
PAIWINDK-08G 35mm Round-Nose Straight Blade
PAIWINDK-08H 30mm Bent Curved Blade

PAIWINDK

LIS52000

LIS52000 Razor Blade Scraper

At last, a scraper that is designed to reach in tight places.

Comes with five stainless steel blades for removing stickers from windshields, bumpers, etc. Also comes with a plastic blade for use on safety plastic laminated windshields to prevent scratching. Spring-release allows easy interchange of blades. Reverse blade in holder for storage. Hollow handle stores all blades when not in use.

LIS52400 Fold-Up Scraper

Blade Folds Into The Handle For Safe, Convenient Storage.

The fold-up scraper features three arm positions and a slanted blade for proper scraping. Great for removing decals, bumper stickers, labels, etc. The quick change blade holder firmly holds a single edge razor blade. Includes one single edge razor blade. Overall length 7 3/4".

LIS52400

S&G87965

S&G87965

Extra Long Sticker Scraper

Specially designed to access steep, sloping windshields and other hard-to-reach places. Excellent for corners and on curved surfaces. Supplied with five standard steel razor blades and one plastic blade. Use the plastic blade on laminated windows and plastic bumpers. The blade in the holder can be reversed for storage. The other blades store in the handle. Heavy duty construction. 16" overall length.

PAI32

Pinstripe Removal Kit with Aluminum Body Tool

SPECIFICATIONS:

STK16000

"The Original" Door Handle Tool

- Fast door handle removal
- Clip stays on handle for easy reinstallation

LIS35350

LIS35350

Door Panel Remover

Removes Door Panel Fasteners, Even In Tight Spaces.

The bent handle design allows use where space is limited, and provides extra prying force. The unique, square cutout in the tool tip provides a no-slip grip, even on fasteners with small ears.

STK21830

STK21830

Door Removal Kit

Removes hinge pins from welded door hinges (for both solid and hollow hinge pins). For all cars with welded door hinges. Includes Door Spring Removal Tool.

STK21835

STK21835

Door Hinge "Pin Popper"

- Removes door hinge pins FAST
- Drives out even stubborn hinge pins
- Direct impact
- Clearance for door panels
- Works on all GM cars with removable hinge pins
- Includes PIN PULLER to remove loosened pins

STK21900

STK21900

GM Door Spring Tool

- Safest tool available for coil springs in GM doors
- Compresses spring for easy, safe removal
- Sides safely enclose spring
- Deep reach version for GM
- B-Body heat-treated, high carbon steel

S&G87615

S&G87615

Universal Window Regulator and Door Handle Clip Remover

Quickly and easily removes window regulator arm and door handle on most vehicles. One end fits retaining clips on General Motors, Ford and American Motors. Other end is sized for Chrysler and some later American Motors models. Prevents damage to upholstery and escutcheon plate.

LIS35400

LIS35400

Door Upholstery Remover

For Plastic Fasteners.

Place the tool under the edge of the door panel and insert into fastener as far as possible ... then simply pry up. Rugged tool with a large comfortable handle.

LIS35200

LIS35200

Windshield Molding / Door Handle Clip Pliers

For removing most windshield molding clips and door handle clips.

Releases clips to remove chrome molding on most windshields and rear glass. Offset handle permits easy access to molding clips. Slips under door handle without damage to panel material.

S&G87675

S&G87675

Door Spring Tool

Use to remove and install the door hinge springs. Use this one tool to service late model General Motors cars and light trucks (with larger diameter springs). Can be used with a 1/2" open end or ratcheting box wrench.

LIS35150

LIS35150

Window Belt Molding Remover

Quickly Removes All Window Belt Moldings.

Slide the powder-coated tool downward between the window exterior and the door. The channel side of the tool should face the door. When the tool channel is below the belt molding, push or pull the tool upward. The tool quickly removes the belt molding without damage to the window or the molding. Fits most domestic and import vehicles.

PAINT & BODY EQUIPMENT

UPHOLSTERY, TRIM & MOLDING REMOVERS AND TOOLS

Seam Buster

STK20015
Seam Buster

- Easily Separate Spot-Welded or Bonded Panels.
- Save up to 15 minutes per panel replacement.
- For quarter panels, rockers and other pinch-welds.
- Sharpened on two edges. The sharp end allows for penetration between the panels and the side edge allows for side impact to drive the panels apart without damage.
- Super tough alloy steel.
- Cushioned handle absorbs shock.

- STK21510**
10-In-One Trim Tool
1. Molding Remover
 2. Windshield Wiper Wrench
 3. Clip/Wire Starter
 4. Door Weather Strip Clip Remover
 5. Trim Pad Remover
 6. Door Handle Clip Remover
 7. Headlight Spring Tool
 8. Windshield Molding Clip Release
 9. Door Clip Remover
 10. Panel Seam Clean-up

LIS35060
Trim Panel Remover

Removes Hard-To-Reach Interior Door Panels and Headliner Clips. Inaccessible push-in clips are now easy to remove. Slide the tool between the panel and the door. Engage the plastic clip in the grooved head. Twist the handle to pop the clip loose.

LIS56650
Adjustable Seal Puller

Head Adjusts to Five Positions. Two hook sizes easily remove most oil and grease seals. Where clearance is a problem, remove the pin to reposition the head. The adjustable head works great on front wheel drive transaxles. Also works on front crankshaft seals without removing the radiator.

LIS56750
Seal Puller

For Oil and Grease Seals. Simply insert the tip of the tool behind the oil or grease seal, press and pull. Leverage works for you. Two size tips reach in and fit nearly all seal applications.

S&G87650
Trim Pad Removal Tool

Remove the plastic trim pad fasteners used on General Motors cars since the early 1970's. Does not damage trim pad or fasteners. They can be fully reused. The tool reaches under the trim panel and pries against hidden surfaces without breakage or scratching paint. Works equally as well on metal trim pad fasteners used on Ford, Chrysler and other cars.

STK21550
Ford Headlight Retaining Clip Tool

- Two Fingers Spread Locking Tabs to release them
- Tang Of Tool lifts back of Clip to Clear Locking Tab on Panel
- Removes Clip Without Damage Even in Confined Spaces

STK21700
Trim Pad Removing Tool

- Grips firmly while supporting the trim pad
- Prys out the clip without damage
- Prys against hidden surfaces, will not mar exposed surfaces
- Heat-treated, high-carbon steel

STK21720
Sure Grip Trim Clip Pliers

- Won't break clips.
- Works faster and easier.
- Works on trim pads, hood insulation, etc.

PAINT & BODY EQUIPMENT
